

TABLE 4-4

SOUTH COASTAL EMBAYMENTS TMDLS⁽¹⁾

SUB-EMBAYMENT	TMDL (kg/day)⁽²⁾⁽³⁾
Stage Harbor	
Oyster Pond	18
Oyster River	4
Stage Harbor	6
Mitchell River	6
Mill Pond	6
Little Mill Pond	2
Sulphur Springs	
Sulphur Springs	5
Bucks Creek	6
Taylors Pond	
Mill Creek	1
Taylors Pond	6
Note: <ol style="list-style-type: none">1. Source: Table 5 of <i>Stage Harbor/Oyster Pond, Sulphur Springs/Bucks Creek, Taylors Pond/Mill Creek, Total Maximum Daily Load Re-Evaluations for Total Nitrogen (Control # CN206.1)</i>, December 31, 2008. Table 5 from the report represented as the sum of the calculated target thresholds loads, atmospheric deposition, and sediment sources (benthic flux).2. This represents the loads necessary for <i>one</i> scenario (of many potential scenarios) that will achieve the target nitrogen concentration at the sentinel station.3. Rounded off sum of target threshold watershed load, atmospheric deposition load, and sediment sources (benthic flux).
