

**TABLE 6-2**

**ESTIMATED WASTEWATER  
FACILITY SITE CAPACITY**

<b>VACANT DEVELOPABLE LAND AREA RANGE (IN ACRES)</b>	<b>TYPICAL TREATMENT FLOW RANGE (GPD) <sup>1</sup></b>	<b>AVERAGE TREATMENT FLOW RANGE (GPD) <sup>1</sup></b>
1 acre	5,000 to 10,000	7,500
1 to 2 acres	10,000 to 15,000	12,500
2 to 3 acres	15,000 to 50,000	33,000
3 to 4 acres	50,000 to 120,000	85,000
Greater than 4 acres	Greater than 120,000	Greater than 120,000

Note:

1. These design (maximum month) flows are only estimates, and will be highly dependent on site conditions, treatment technology, disposal technology, and necessary buffer area from sensitive receptors and adjacent property owners.
